

## **Eden Biodesign's U.S. Technical Director to Present at the World Vaccine Congress in Lyon, France, October 7**

*Dr. Phil Ball Will Speak on "End to End Process Development and Scalable Manufacture," at the World Vaccine Congress*

### **Liverpool, UK and Research Triangle Park, N.C. (September 29, 2009) –**

Eden Biodesign, a globally-integrated provider of biopharmaceutical process development, cGMP manufacturing and consultancy services, today announced that its U.S. Technical Director, Dr. Phil Ball, will present at the World Vaccine Congress (October 5-8) in Lyon, France. Eden Biodesign is also an Associate Sponsor of the World Vaccine Congress.

Within the "Manufacture, Process Development and Scale-up" theme of the Congress, Dr. Ball's presentation entitled "*End to End Process Development and Scalable Manufacture*" will be on Day 2 of the Congress (Wednesday, October 7) at 12:10PM.

During this presentation, Dr. Ball will recommend approaches to be taken from the earliest stages of vaccine development to expedite a scalable and fully integrated manufacturing process that supports the entire product life-cycle. He will expand on this to discuss strategies for efficiently establishing and maintaining a diverse portfolio of vaccine candidates.

The World Vaccine Congress Lyon is the annual vaccine conference that addresses every aspect of vaccine research, vaccine development and vaccine manufacturing. There are four full days of content, where 80 speakers and ministers will present on a wide range of topics.
